

CLERK: Read LB 515. There are committee amendments by Senator Warner's Appropriations Committee.

SENATOR WARNER: Mr. President, I move adoption of the committee amendments. The part of the amendment is strictly clarifying. The other part is the emergency clause. LB 515 expands the cash fund authorization for the Department of Health. They do act as a pastor agency where certain federal funds with the county government, they can do much that they ...the clerical work for some of the county government in the areas that were listed within these funds, there would be no general fund money involved but it is a merely a permit that passed through arrangement. I should point out that both 515 and 512 will have an A bill introduced before, that are being prepared. Both of them are for cash funds only so that the authorization contained in the bill can actually function. With that I move adoption of the committee amendment.

SPEAKER LUEDTKE: Any discussion on the committee amendments on LB 515? All those in favor then of adopting the committee amendments vote aye, opposed nay. Record the vote.

CLERK: 26 ayes, 0 nays on motion to adopt.

SPEAKER LUEDTKE: The committee amendments are adopted. Senator Warner.

SENATOR WARNER: Mr. President, I move that LB 515 be advanced. In addition to the new language, which I've already explained is part of the committee amendment, I should point out that stricken in line 7 and 8 is "mobile homes and travel trailers". The reason that is being stricken is last year, we established a separate fund for those, for that activity which the Health Department still continues. It's inappropriate for it to be paid out of cash funds since they have their own program now. With that, Mr. Chairman, I move that LB 515 be advanced to E & R Initial.

SPEAKER LUEDTKE: Any further discussion on LB 515? If not, all those in favor of advancing LB 515 to E & R Initial vote aye, opposed nay. Record the vote.

CLERK: 27 ayes, 0 nays, 21 present and not voting, 1 absent and not voting.

SPEAKER LUEDTKE: LB 515 is advanced to E & R Initial. That will conclude all of the Appropriations bills under special order. We next have on the agenda the matter of the resolution LR 34. I understand that it is desired of Senator Lewis to put that over until after Select File. Is that correct? However, I do want to bring to the attention of the Legislature that LR 34 was sent on to the Executive Board in the notion that it was a study resolution for which reason to clear the record, we should have a unanimous consent motion to return it for action on the floor. Do you want to make that motion Senator Kremer? Chair recognizes Senator Kremer.

SENATOR KREMER: Mr. Chairman, the way the resolution was worded, it was interpreted to mean there was going to be an interim study. This, however, is not true. If I can have unanimous consent to bring it back to this body for discussion, we'll discuss the resolution in full content. It goes back to this body rather than being referred to the interim study.
